

FIRE BLANKET

NFB 4.4

NFB 6.6

PRODUCT DESCRIPTION

Fire blankets are made of fire resistant glass fiber fabric with silicone coating. It is primarily intended for extinguishing cooking oil fires in the kitchen.

FEATURES

- NAFFCO's blankets are electrical resistant not less than 1M to ensure that in the event of use where live electrical equipment is concerned, the potential for an electrical shock is minimised
- NAFFCO's fire blanket can be released and can be covered on the flame in LESS THAN FIVE SECONDS

- It is an excellent fire extinguisher in a car, boat, caravan or holiday home and therefore we recommend that each family should have fire blanket at home. Fire blankets can be used to extinguish fires in electrical appliances (toaster, coffee maker, etc.) rubbish bins, clothes and table top fires caused by candles or fat pan fires. Fire blankets can also be used to wrap around a person whose clothing is on fire.
